

FLOWER POWER

@ TUINEN VAN WEST

flowers, plants, shrubs and trees for wild bees and butterflies

– an initiative by a group of gardeners/ beekeepers

WHAT IS FLOWER POWER FOR?

- wild bees and butterflies have a difficult time
- there are many honeybees in Amsterdam-West
- there are not enough flowers in the 'Tuinen van West'

WHAT ARE FLOWER POWER PROJECTS?

- wild flower borders (along paths) ✓
- flowering shrubs and trees (near the 'Bijepark') ✓
- OASE (meadow with native flowers, 'Idylle') ½
- water plants and bulb flowers (in the near future) ...
- public information and education ✓

WHAT DOES FLOWER POWER DO?

- collaboration with various organizations
- promotion of ecological management
- use of proper plant species for wild bees and butterflies
- planting and sowing (with volunteers)

- information board(s)
- guided tours (together with other organizations)
- lectures/ workshops
- social media
- digital newsletter
